13. A...

BRAIN TEASERS #1
volume two

name: **ANSWER KEY**

1. I hang or stand by a wall, run fast with hands but no feet at all. What am I?
A Clock
2. What are the next two letters a, s, d, f, __ __
g, h
(next letters on the middle keyboard row)
3. What is full of holes but still holds water?
A Sponge
4. The rungs of a 10 foot ladder attached to a ship are 1 foot apart. If the water is rising at the rate of one foot an hour, how long will it take until the water covers over the ladder?
Never
(because as the water rises, so will the floating ship)
5. You're running a race and pass the person in 2nd place. What place are you in now?
2nd Place
(you never passed the runner in first place)
6. Johnny's mother had three children. The first was named April and the second was named May. What was the name of the third child?
Johnny
7. Jenna wrote all the numbers from 300 to 400 on a piece of paper. How many times did she write the digit 3?
120 Times
8. Farmer Brown came to town with some watermelons. He sold half of them plus half a melon, and found that he had one whole melon left. How many melons did he take to town?
Three Melons
9. 72927 miles is shown on a car's odometer - a palindromic number. What are the minimum miles you would need to travel to form another palindromic number?
110 miles / 73037
10. How many times can you subtract the number 5 from 25?
Once
(After you subtract 5, its no longer from the number 25)
